

How to Prevent Pulmonary Consumption.

ment and the writer of this article—thinks if he could only induce every one to read and try this course as laid down, many hundreds, yea thousands, of human beings would be saved from the ravages of this terrible pest.

"How often persons take cold, and they do not know how to get rid of it. They say they have had this terrible table No. 2, but, and then, again, they endure the greatest exposure, and never feel any effects from it, for the simple reason that the digestive power is in a tolerably healthy condition; and when they take cold the power of the mucous walls of the stomach, or when the lungs are attacked, the mucous walls are not so impervious to cold, and the power of Nery is lost. In fact, it is almost impossible to take cold, unless the power of Nery is lost. When the organs of the liver and stomach perform their natural functions.

"When a person takes a cold, get a bottle of Schenck's Primrose Pills, and a box of Mandrake Pills. First take a dose of the Primrose Pills, then take a dose of the Mandrake Pills. After that take a table-spoonful six or eight times a day, and take one Mandrake Pill every night or every other night, just enough to keep the bowels gently open for a few days; this will carry the cold off and leave the stomach healthy—persons being more apt to take cold when they are open than when the stomach is closed.

"More than one-half of the lung disease proceed from a disordered stomach. A coated tongue, acid headache, catarrh and ulcerated throat, are all caused by a disordered stomach, and it does so as much good to burn out a disordered stomach with castic as to scrape the throat with a knife. The stomach is the seat of the disease, and it is almost entirely temporary, the cause is not removed. It is as easy to remove the stomach that ulcerates the throat, as it is to continue to treat the condition if it runs down into the bronchial tubes, and Consumption and Phthisis follow. As soon as a person gets a cold the first thing they do is something to stop the cough, and when stops the natural course of the disease, and the lungs are not cured, but the cold is not cured, and the cold is not carried off, but checked, and with every slight change in the weather it breaks out again and again, and before the person is aware of it, the lungs are a mass of scars, and they find it easy in Consumption. Now, if that first cold was properly treated, of which Schenck's Primrose Pills and Mandrake Pills are the best, then the first cold would be cured, and then there would be no more, for the one-fourth the mass of lung disease are now. Consumption is the first, when that the disease is fastened on, you do not stop the cough; for if you do you are sure to die. No one was ever cured, though it was deeply seated, with remedies used to stop the cough. The cure is to get the stomach healthy, and the lungs will be cured. Consumption is, his Sec. West Cold and Mandrake Pills cleanse the stomach and liver, and create a good appetite, while the Primrose Pills are of ridding the matter in the lungs; and, by using the robust Nerys of food, new and healthy blood is made, and frequently the patient is restored to robust health, and dies, too, when one lung is nearly gone.

Dr. SCHENCK can be consulted professionally every Tuesday.

from 9 a. m. to 3 p. m., at his rooms. No. 22 Bond st. He keeps there a full supply of his medicines, which can be obtained at all times *gratis*; free, but for a thorough examination with the Respirometer the charge is \$3, which every one should undergo if they can afford it; if they have had a sealed cough, it is the only way to test accurately whether it is Bronchial, Pulmonary, Tubercle or Pleuritic Consumption, or whether the lungs are diseased at all. Price, Pulmonary Syrup and Sea Weed Tonic, \$1.50 per bottle, or \$7.50 per half dozen. Mandrake Pills, 25c. per box. DEMAS, BARNES & Co., No. 21 Park row, Agents.

**Opposition
TO THE
PRESENT MISMANAGEMENT.**

FELLOW MEMBERS OF THE MERCANTILE LIBRARY ASSOCIATION: In view of the general dissatisfaction existing among the members of the Association in regard to the administration of its affairs for the past year, an organization has been prevailed upon for the purpose of controlling the abuses which have prevailed, and securing the election of such a Board of Officers and Directors as shall properly represent the wishes of the members.

We submit for your consideration the following statements:

1. It appears from the report of the Board of Directors presented but, for the first time in the history of the Association, not adopted at the annual meeting, held May 8, that the receipts for the past year amounted to nearly \$43,000, an increase of about 43 per cent., while the amount expended for books was only about \$9,000, being an increase of 10 per cent.
2. The Board quarreled with the Trustees of the Clinton Hall Association, when the latter, with their characteristic integrity, kindness and promptness were ready to carry out the agreement between the

3. The Board has arbitrarily made a new arrangement of the Manuscripts and Books of Reference in the Reading Room, placing them beyond the members' reach, and thus subjecting them to great inconvenience and deprivation.

4. The Board has suddenly abolished the up-town Reading Room, without notice of any intention to do so, collecting from up-town

3. The Board has, without the authority or even knowledge of the members at large, obtained the passage of a bill in the New York Legislature, designed to incorporate the Association under a new charter, the results of which action, if sustained, will be to change our character, the results of which action, if the Association has prospered and increased for over forty years, and to place in the hands of the Board of Directors unlimited power. The objects of the organization are, therefore, to sustain the character of the Association by electing its

charge of its affairs men who will support its laws and perform its contracts, and continue to its members all the rights and privileges formerly enjoyed.

Your cooperation is respectfully solicited in support of the following ticket:

FOR PRESIDENT,
PETER VOORHIS,
With Panama Railroad Co.

FOR VICE-PRESIDENT,
JAMES W. EDWARDS,

With Wright, Brinkmeyer & Co.
FOR CORRESPONDING SECRETARY,

AARON C. ALLEN.
 Our friends and members of the above Society are requested to vote
 for our brother Aaron.

Last chance but one.

ETHAN ALLEN,
CHARLES F. ALLEN,
THEODORE ALLEN,
JOHN ALLEN.

And More to Come.

Why is Asiatic Cholera Fatal?

Thousands supposed to die of cholera and other malarious epidemics are killed by insane medication. In the cholera season of 1868, Asiatic cholera, the regular formula with brandy, opium,

patients treated according to the regular formulae with *Vaccinia*, *Oxytocin*, *Numbur* and calomel, died in multitudes, while in every case where RADWAY'S READY RELIEF was promptly given the sufferer was instantaneously relieved and subsequently recovered. Why was this? Simply because this peerless vegetable medicine is an equable stimulant, disinfectant, counter irritant, anodyne, tonic, sudorific, and fits cases of uncontrollable cholera as astringent. It does not lock down upon the system as opium does, nor fire the brain like brandy, or irritate

The wise and prudent, if cholera reveals, will not wait until relief comes with the pestilence before using the **READY RELIEF**, but will subdue the morbid nature by a supreme effort to subdue the morbid influence of cholera.

The Round Table (ready early Thursday morning) will contain the addresses of authors, artists, and publishers; "Concerning Eggs," a Poem by Joseph Barber; Reviews of "Swinton's Army of Potemac," "Ecce Homo," and "The Queen of Bohemia's Book," "About the Neck," "The Forthcoming Translation of Dante," and

criticisms, Literary Notes, Editorials, and all the customary correspondence. Also a sketch of Mr. George W. Childs, the Philadelphia publisher.

American Institute Farmers' Club.—A meeting of the club will be held TO-DAY (Tuesday), at 11 o'clock p. m., at the room of the Institute in the Cooper Union Building. Mr. REED will exhibit his Microscopic Views of the Potato Disease. Admission free.

JOHN W. CHAMBERS, Secretary.
